

Have you ever dreamed of making your own movies, bringing characters to life through animation, or creating cool special effects like the pros? At Lights, Camera, Action! Video & Animation Camp, students will step into the world of film-making and animation, where imagination takes center stage!

This hands-on, creative camp is perfect for young storytellers, future directors, and curious kids who love technology and the arts. Throughout the week, campers will explore the magic behind movies, experiment with different animation techniques, and even star in their own productions!

The Highlight Reel:

Filmmaking Fun: Learn how to plan, shoot, and edit short films using kid-friendly tools and techniques.

Act & Direct: Step in front of (or behind!) the camera to bring scenes to life.

Stop-Motion Animation: Use LEGOs, clay, paper cutouts, and more to create frame-by-frame animated shorts.

Digital Animation & Special Effects: Experiment with simple digital tools to animate drawings, add cool effects, and make characters move!

Voice Acting & Sound Design: Create voiceovers, record sound effects, and add background music to enhance a project.

Film Challenges & Group Projects: Work as a team to solve creative challenges, like making a one-minute silent film or crafting a story from a random set of props.

Who? Rising 3rd-6th graders

When? Monday, June 23rd-Friday, June 27th (10:30am-12:00pm)

Where? Innovation Lab

Cost? \$150 assessed through FACTS

Whether your child wants to be the next big director, an animator, or simply have fun bringing their ideas to life, Lights, Camera, Action! Video & Animation Camp is the perfect place to explore, create, and shine!
